Bachelor of Computer Science, Software Engineering   Graduated: May 2023
Utah Valley University – Orem, UT.
- ABET Accreditation

Programming Certificate – Utah Valley University   Received: Dec 2021

Work History

Engineering Projects:

Bank Account Manager- C#:
Console Application – Repo Link
- Created a banking application where you can: add different accounts by type, make deposits, and make withdrawals.
- Used an interface to have the structure of the different types of accounts organized.
- Implemented inheritance with the account class as the parent and the savings, checking's, and CD accounts as children.

WinVoice,-React, JavaScript:
Web Application - Application Link
- Worked on an agile team creating an invoice tracking application.
- Implemented MongoDB to store and access all the invoices.
- Learned React and rendering the data into dynamic table with this project.
- Currently working on.

***Alexander Lake*- HTML, CSS, JavaScript:**
Website– Repo Link
- Designed a one-page application in which my primary focus was implementing a visitor table.
- Worked on being able to store the entered data and validate the info on each line.
- Learned and implemented CRUD using the Model, View, Controller design pattern.

List Manager- Kotlin:
Mobile Application– Repo Link
- Created a mobile application that manages a list.
- Learned how to create an interactive Android application.
- Learned about using a Recycler View to reuse the views when having a long list.

Full Time Positions:

Night Shift Production Manager   Aug 2017 / Present
Signs.com – Salt Lake City, Utah
- Managed the night shift production staff to make sure work is getting done efficiently.
- Structured the shift according to when and where the work is needed.
- Identified bugs in our internal management system and reported them to the correct individuals to get fixed.
- Trained employees in all of our processes.

Panel Builder   Jan 2018 / July 2018
Quality Electrical Systems Inc. – Sandy, Utah
- Built electrical panels for PLC's (Programming Logic Computers).
- Read and interpreted wiring schematics.
- Worked efficiently to optimize my throughput.

Mechanical Technician   Jan 2017 / May 2017
Radius Engineering - Salt Lake City, Utah
- Learned about assembly drawings and schematics to assemble components.
- Assembled mechanical parts for Carbon Fiber Presses.
- Made sure that everything I assembled was of the highest quality possible.

Digital Printer Operator   May 2015 / Aug 2017
Ferrari Color – Salt Lake City, Utah
- Operated a large format digital printer.
- Focused on quality so we can be recognized as a superior print shop.
- Developed ways to improve my work output.
- Diagnosed and troubleshot printer as problems arose.

Service Sales Representative   Sept 2013 / May 2015
Cintas – Salt Lake City, Utah
- Managed a weekly delivery route.
- Interacted with customers to make sure they were happy with our service.
- Offered our products to produce more revenue for the company and myself.
- Applied any changes that were needed to their account.
- Worked with customers to sign new contracts with our company.
